JOB POSTING

ST. JOHN'S
International Airport Authority

Manager, Infrastructure

St. John's International Airport Authority (SJIAA) is a private, not-for-profit corporation committed to creating an exceptional airport experience at Newfoundland and Labrador's premier gateway, and is the second largest Airport in Atlantic Canada.

ACCOUNTABILITIES

Reporting to the Director of Infrastructure and Planning, the Manager, Infrastructure will provide both technical and managerial leadership to the electrical and building maintenance departments to ensure the execution of preventive maintenance and to effectively respond to breakdowns and disruptions. The Manager will coordinate the planning and delivery of the small capital sustaining program and will provide operational and maintenance input into the larger overall capital program. The Manager will establish consultative working relationships with key stakeholders; work closely with internal and external customers; and contribute technical insight and leadership expertise to the business planning process that will maintain and improve the performance of SJIAA as a world-class international airport.

QUALIFICATIONS

As the ideal candidate, you bring at least seven years' supervisory experience in maintenance functions, along with a Bachelor's degree in Electrical or Mechanical Engineering and eligibility for membership in the Professional Engineers and Geoscientists of Newfoundland and Labrador (PEGNL). You have significant experience in the implementation and management of computerized maintenance management systems and the demonstrated ability to plan and organize, develop and manage budgets, and effectively lead and motivate a diverse workforce. Your presentation skills are well developed, and you are a superb communicator, both verbally and in written form. Experience working in a unionized environment will be considered an asset.
