JOB POSTING

ST. JOHN'S
International Airport Authority

Building Maintenance Technician

St. John's International Airport Authority (SJIAA) is a private, not-for-profit corporation committed to creating an exceptional airport experience at Newfoundland and Labrador's premier gateway, and is the second largest Airport in Atlantic Canada.

We are currently seeking a Building Maintenance Technician to join the Building Maintenance team. Reporting to the Supervisor, Building Mechanical Maintenance, this position performs a wide variety of duties to safely maintain, repair and operate our facilities and infrastructure across the airport site. Application of technical knowledge to problem solving and continuous improvement of assets and systems is valued. Tasks include maintenance and operations of pressure plants; fuel systems; plumbing, water and sewer infrastructure; baggage handling systems; fire detection and protection systems; and other fixed infrastructure

SUMMARY OF DUTIES

- Inspect, maintain and repair steam and heating systems, fuel systems and facility buildings
- Maintain and operate the heating and steam humidification systems in the registered plant under direction of the Plant's Chief Engineer
- Inspect, maintain and repair all plumbing systems, underground sewerage and water infrastructure, and HVAC systems including Automation Control System
- Inspect, maintain and repair baggage handling systems, passenger loading bridges, building architectural components, overhead doors and systems, and fire systems
- Participate in weekly on-call rotation for after-hours support, be available for overtime work, and perform duties of Supervisor during his absence as required
- Participate in continuous improvement project implementation. For example: Computerized Maintenance Management System, Document Management
- Work collaboratively with other SJIAA departments, airport tenants, external authorities and the Public to understand their needs and determine appropriate responses
- Participate in all required training for the position, ensuring necessary certifications are maintained
- Other duties as required

QUALIFICATIONS

- High School Graduation Diploma
- Diploma in Mechanical Engineering Technology from an Accredited College
- Registration or Eligibility for registration with AETTNL
- Class III Power Engineering Certificate
- Minimum of 3 years field experience
- Valid Class V driver's license
- Experience with Computerized Maintenance Management System (CMMS)
- Effective oral communications skills and ability to work collaboratively
- Knowledge of safe work practices and regulations
- Physical ability to perform the work required
- Must be available for standby and overtime, as required.
- Must obtain and maintain a valid Airside Vehicle Operators Permit (AVOP)
- Must obtain and maintain a valid Restricted Area Identification Card (RAIC)

APPLY TO:
Manager - Human Resources
Administration Office, ATB
Email: careers@stjohnsairport.com

CLOSING DATE: Friday, July 14, 2023

SJIAA is an equal opportunity employer. Applicants must clearly demonstrate in their resume that they meet the posted qualifications for the position. Proof of education/certifications must be provided prior to appointment to position. As this is a safety sensitive position, a drug and alcohol test will be required as a condition of employment. The successful applicant will be required to provide a satisfactory Certificate of Conduct prior to employment.
