## Systems Specialist, Maintenance

St. John's International Airport Authority (SJIAA) is a private, not-for-profit corporation committed to creating an exceptional airport experience at Newfoundland and Labrador's premier gateway. The airport is the second largest in Atlantic Canada and currently serves more than 1.5 million passengers annually.

The Systems Specialist, Maintenance primary responsibilities include implementation, utilization and continuous improvement of the new Airport Facilities Maintenance Management System. The role will; work closely with the Infrastructure team to improve maintenance functions at the Airport and ultimately the reliability and performance of the various assets and systems necessary for safe operations. The incumbent will regularly interface with other Airport departments to plan and schedule necessary work to minimize operational disruption and costs, ensure capital projects and modifications include consideration for proper maintenance, create, track and regularly report on metrics to measure the effectiveness of the maintenance function, and work with vendors and industry specialists to evaluate and implement new technologies where justified.

As the ideal candidate your qualifications include:

- Completion of a technical college certificate in industrial technology.
- Valid NL Drivers' license.
- Proficient in utilization of computers and office software suites. Experience with computerized maintenance management systems and geographical information systems are significant assets.
- Experience managing and utilizing maintenance information effectively.
- Experience working in an industrial environment.
- A minimum of five years' experience working with and maintaining a Maintenance Management system. Field experience in mechanical and electrical maintenance is considered a valuable asset.
- Experience developing job plans utilizing Maintenance System Software.
- Experience creating and utilizing maintenance data base information.
- Experience in training others to utilize maintenance systems, developing step by step procedures for maintenance system users.

This is a unionized position with competitive pay and benefits, in accordance with the collective agreement. Interested applicants should forward their resumes, including a current copy of their journey person certificate by March 1, 2019 either by e-mail, or in writing to:
