

My Airport Journey

A Social Story About Travelling

It's time for our trip to begin!

When I arrive at the Airport, there are two doors I can use to enter. Either one is fine.

After I enter the Airport, it is time to check in. There are both computers and desks for checking in. I can go to either one to get my airplane ticket. I will give my suitcase to the worker at the desk.

After I check in,
it is time to go through Security.

The workers will check our bags
to keep us safe.

We will put our bags into plastic containers that will slide through a machine to be checked by the officers. I will have to empty my pockets and take off my belt and hat if I'm wearing one. The officer might also ask me to take off my shoes.

I will walk through a metal detector like this after I put my bag in the container.

The door might beep which means the officers will need to wave a magnetic wand around me.

After I walk through
the door, I will get
my bags back.

I will now go up this
escalator and wait
for my flight.

I am now in the Departures Lounge.

When I am in the Departures Lounge, I will see restaurants and stores.

I will sit in these blue chairs while I wait
to get on the airplane.

While I am sitting, I will hear
announcements over the sound system
with instructions to follow.

There is also a play area if I
want to have fun while
waiting for my airplane.

It is now time to go to the gate.

This is where I lineup to get on the airplane.

The gate will be open when I'm getting on the airplane, and I will show the worker my ticket and an identification card.

Next, I will walk down a long hallway to get on the airplane.
This is called a Bridge. There will be a small gap I have to step
over to get on the airplane.

After all passengers are on the airplane, it is time to take off.
I will have a great trip!
