

**ST. JOHN'S**  
International Airport Authority

St. John's International Airport advises of work being completed on Apron I from **May 1-July 31, 2025**. This work will be completed in phases, and the scope of the project includes asphalt rehabilitation and correcting gradient issues in the areas of Gates 9-12, inset light replacements, and drainage improvements.

This project will have no impact on commercial operations and access will be maintained for Fixed Base Operators.

A diagram indicating the phases is below.
